外观设计与工艺/Exterior Design & Craftsmanship

极简纯色

Minimalist
Monochrome

深邃高级灰配色, 适配各类使用场景与个人风格。

A deep, sophisticated gray palette that adapts seamlessly to diverse usage scenarios and personal styles.

视觉交互

Visual Interaction

高清数显屏, 实时剩余电量与功率一目了然。

Visual Interaction: High-definition digital display provides instant visibility of remaining battery level and power output.

自带线设计

Built-in Cable
Design

集成Type-C快充线, 出门免带线, 即抽即用。

Integrates a Type-C fast-charging cable, eliminating the need to carry extra cords — simply pull and use on the go.

轻薄便携

Slim & Portable

20000mAh大容量仍保持紧凑机身, 轻松放入包袋随身携带。

Offers 20,000mAh high capacity while maintaining a compact form factor, easily fitting into bags for on-the-go carry.

按键设计

Button Design

一体式轻触按键, 反应灵敏, 避免误操作。

Features a seamless touch-sensitive button that responds instantly and helps prevent accidental presses.

Lezet自带线充电宝20000mAh大容量搭配100W双向极速快充, 内置100WType-C快充线, 出门无需额外带线。自充约1.5小时满电, 双口同时输出100WMax, 可高效为笔记本与手机同步供电。紧凑轻便, 兼顾商旅日常。搭载智能温控与多重电路防护, 通过国家双重安全认证, 全程安心快充。

Lezet Built-in Cable Power Bank combines a 20,000mAh high capacity with 100W bidirectional fast charging. It features an integrated 100W Type-C cable, eliminating the need to carry extra cords outdoors. The device self-charges fully in about 1.5 hours and supports dual-port simultaneous output up to 100W, efficiently powering laptops and phones together. Compact and lightweight, it suits both business travel and daily use. With intelligent temperature control and multi-layer circuit protection—certified by dual national safety standards—it delivers safe, worry-free fast charging throughout use.

产品特点 >>>

Product Features

① 核心充电性能/Core charging performance

- 极速快充技术/Ultra-fast charging technology

支持100W MAX双向快充, 30分钟可为笔记本补电50%。

Supports 100W MAX bidirectional fast charging, which can charge a laptop by 50% in 30 minutes.

- 真实容量与转化率/Real capacity and conversion rate

额定容量20000mAh, 实测转化率高于90%, 足量续航。

Rated Capacity 20,000mAh | Actual Conversion Rate >90% | Full-capacity Endurance

- 协议兼容性/Protocol compatibility

广泛兼容PD、QC、SCP等多种快充协议, 手机、平板、笔记本全兼容。

Widely compatible with PD, QC, SCP, and other fast-charge protocols, supporting phones, tablets, and laptops.

- 高功率输出/High power output

单口最高支持100W输出, 满足笔记本电脑高性能供电需求。

The single port supports a maximum output of 100W, meeting the high-performance power supply requirements of laptops.

- 多设备同时充/Multi-Device Simultaneous Charging

双口独立输出, 可同时为两台设备快充, 智能分配功率。

Dual-port independent output enables simultaneous fast-charging for two devices, with intelligent power allocation.

2 安全与可靠性/Safety and reliability

- 电芯品质/Battery cell quality

内置4颗汽车级21700容量电芯, 能量密度高, 循环寿命长。

It is equipped with 4 automotive-grade 21700 power cells, featuring high energy density and long cycle life.

- 多重安全防护/Multiple safety protections

具备过压、过流、过温、短路等多重保护, 使用安心。

It is equipped with multiple protections such as overvoltage, overcurrent, over-temperature and short circuit, ensuring safe use.

- 权威认证/Authoritative certification

通过CCC、GB 4943.1-2022及GB 31241-2022双国标认证、CE、FCC、RoHS、PSE等国际安全认证

It has passed the CCC, GB 4943.1-2022 and GB 31241-2022 dual national standards certifications, as well as international safety certifications such as CE, FCC, RoHS and PSE.

- 耐用性/Durability

外壳坚固, 电芯可循环使用1000次以上, 长久陪伴。

Rugged housing supports 1000+ charge cycles for long-term reliability.

- 符合民航登机标准/Complies with civil aviation boarding standards

电池能量73Wh, 符合国际民航携带规定, 出行无忧。

Battery energy 73Wh, compliant with international civil aviation boarding standards — travel with confidence.

3 智能创新/Innovate intelligently

- 智能显示屏/Smart Display Screen

通过彩色显示屏实时查看电量、功率、电压电流、状态。

Real-time monitoring of battery level, power, voltage, current, and status via a color display screen.

- 智能识别/Intelligent recognition

自动识别设备电流, 小电流设备(手环、耳机)也能充, 不伤电池。

It can automatically identify the current of the device. Even small current devices (such as smart band and headphones) can be charged without damaging the battery.

- 边充边放/Charge-While-Discharging

支持同时为自身充电并可为其他设备供电, 一机两用高效便捷。

Supports charging itself while simultaneously powering other devices, enabling dual-use efficiency and convenience.

- 智能节电/Intelligent power saving

无负载自动进入休眠模式, 有效减少电量损耗, 延长待机时间。

Automatically enters sleep mode under no-load conditions, effectively reducing power drain and extending standby time.
